

HIKING

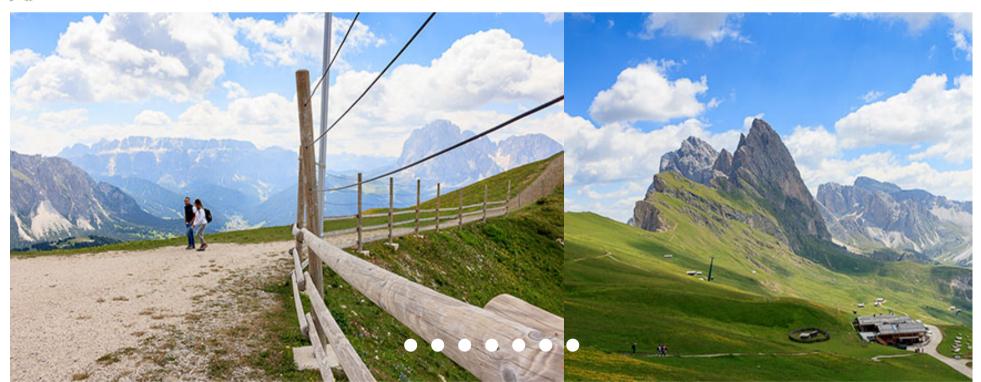

The Dolomites in general and the areas which can be reached from Seceda are in particular a real paradise for mountain lovers.

There are easy hikes, which are ideal for children, but there are also "vie ferrate" (iron ways) and a variety of climbing tours for experienced mountaineers.

SECEDA - PIERALONGIA - RIFUGIO FIRENZE - JUAC - SELVA

The Seceda with its 2.500 meters is the highest vantage point in Val Gardena. As soon as you arrive at the mountain station, the breathtaking landscape assure that your view will be lost for miles in the natural skyline of the Dolomites. We recommend continuing the excursion only after calmly admiring these beautiful surroundings. The Sassolungo and the Sella group will make you fall in love. On your left arises the majestic Odle-Group with its easily recognizable, typical rock formations.

Calmly continuing our walk towards the Odle-Group, we can enjoy a sense of freedom emanating from the beautiful surroundings. We will choose the highest route in order to walk past the panoramic point shown in the pictures. The alpine flowers will reveal themselves before you like a natural carpet of a thousand colors.

Following the indicated path, you will find yourself at an intersection with a path leading uphill and one leading downhill; you will choose the one downhill that will take you past the Troier-Refuge towards Pieralongia. After one hour of walking you will reach the Pieralongia Refuge at the bottom of two "stone-teeth" rising from the ground towards the sky.

From here another hour of walking will lead you to the famous Rifugio Firenze and from there - in about an hour and a half - to the Rifugio Juac to finish your journey in Selva di Val Gardena.

This is the long trip, the one that you can easily do in a whole day, where you walk immersed in a magical place of many colors conveying inner peace and total relaxation.
